

INTRODUCTION TO MANUAL TESTING DOCUMENTS & WEBPAGES WITH A SCREEN READER

LOGIN INFO
BELOW!

•
JUNE 20, 2018
9:30 TO 11:30 MST

Join us for guided, hands-on, experience performing basic automated and manual accessibility testing using the Microsoft Accessibility Checker for source documents, the WAVE Web AIM Accessibility checker for websites, and the NVDA screen reader in documents and web pages.

Attendees should have the following:

- Windows laptop
- Note: MAC users interested in attending the training should contact training organizers prior to attending
- NVDA downloaded from www.nvaccess.org
- Documents or web pages for testing (sent with flier)
- Headphones

Location

Idaho Water Center
Classroom 162
322 E Front Street Boise, ID
